

GEORGE POPOVIC

Back End Developer

• georgepopovich14@gmail.com

• [GitHub](#)

• [LinkedIn](#)

• [Portfolio](#)

SKILLS

- Node JS
- Express
- MongoDB
- JavaScript
- TypeScript
- HTML / CSS
- AWS
- Git / GitHub
- React / Redux

WORK EXPERIENCE

Back End Developer Intern

[Jugadu.in](#)

(11/2020 – 12/2020) Remote Work

- Developed a dynamic back end API from scratch using Node.js & MongoDB, all while working in a fully remote environment
- Optimized API to handle millions of MongoDB Documents without any slows-down
- Achieved desired results in half the expected time

PROJECTS

Online Meetings Auto-joiner

[View Code](#)

(10/2020)

Created a Node.js web scraper that automatically attends Microsoft Teams meetings.

- When a meeting is detected, camera and mic are automatically turned off and the program proceeds to join the meeting.
- Detects when there is less than a specified number of people in a meeting and leaves the meeting, proceeding to search for new meetings to join.

Ecommerce Website

[Live Demo](#) [View Code](#)

(09/2020 – 10/2020)

Built an eCommerce web application with Node.js, MongoDB, React & Redux. Deployed to AWS EC2. Features real credit card payment using Stripe API, product sales analytics, admin-role privileges, Google OAuth authentication and more.

EDUCATION

Mixed High School

[Mladost Tivat](#)

(09/2017 – Present) Tivat, Montenegro
