GEORGE POPOVIC

Full Stack Developer

● georgepopovich14@gmail.com   ● **GitHub**   ● **LinkedIn**   ● **Portfolio**

SKILLS

- Node JS
- Express
- MongoDB
- PostgreSQL
- JavaScript
- TypeScript
- REST API
- HTML / CSS
- Git / GitHub
- React
- Redux
- AWS

WORK EXPERIENCE

Back End Developer Intern (11/2020 - 12/2020) - Remote Work
at Jugadu.in

- Developed a secure, optimized and flexible REST API from scratch using Node.js & MongoDB
- Reached MVP milestone in under a single month, beating the client's expected time of 2 months
- Communicated closely with the project manager to incorporate new features and achieve optimal results
- Optimized API to handle millions of Database entries without any slow-downs

PROJECTS

Node.js Web Scraper (10/2020)
View Code

- Created a web scraper with Node.js for automatically attending Microsoft Teams meetings
- The program mimics human behavior, joining meetings when they become available and leaving them when everybody else leaves

Ecommerce Website (09/2020)
Live Demo View Code

- Built an e-commerce web application with Node.js, MongoDB, React & Redux, hosted on Amazon EC2
- Features credit card payment using Stripe API, product sales analytics, admin-role privileges, OAuth & more

Stock Price Website (08/2020)
Live Demo View Code

- Created a website that uses a third party API to display a chart detailing a company's stock price data

EDUCATION

Mixed High School (09/2017 - Present) - Tivat, Montenegro
Mladost Tivat
